

# ELEVATE YOUR COMMUNITY HEALTH PROGRAMS

## *Introducing The Meaningful App*

The Meaningful App by Impact Global Health Alliance is a data collection app, designed with front line social services organizations in mind.

### THE FEATURES THAT MATTER MOST

#### **Works Offline**

No internet? No problem. Collect, access, and manage data in the most remote locations, ensuring seamless operations wherever you go.

#### **Visual Data Collection**

Incorporate photos directly into questionnaires, document community progress, and even capture videos to ensure richer, more comprehensive data.

#### **Longitudinal Tracking**

Track individuals and communities over time. Understand trends, measure impact, and make informed decisions with follow-up tools and nested data structures.

#### **Built-in Job Aids and Reminders**

Keep your team focused with reminders, checklists, and job aids, all integrated into your workflow for maximum efficiency.

#### **Interactive Dashboard**

Access real-time data at-a-glance. Customize your view to focus on what matters most to you, from health outcomes to program results.

#### **Fully Customizable Form Builder**

Flexible across sectors, whether you're working in health, education, empowerment, WASH, or income-generating activities. Tailor the app to your needs and simplify data collection across multiple projects.
